

The Stages of Grief

Pt.1 – Denial

(Instrumental)

Pt.2 – Anger

I'm here now

Alone with You

The least You can do for me

Just give me the sign what to do

My whole world is spinning backwards

I think I'm going insane

How could You let this be?

It's all been in vain...

Where were You?

Hidden In silence

Detached from Your Creation

A failing grand design

At this point there is no turning back

My whole world turned to million pieces

We're helpless pawns playing Your games

Tried to fight it

But in vain

The anger's taking over me

I'm still waiting for the light

To guide me through this

I'm still waiting for the light to shine

Pt.3 – Bargaining

Here I am again
Humbled by defeat
It feels so cold inside this place

And is this darkest hour
I'm looking for the light
To feel some kind of hope again

Now there's nothing left for me
But to get down on my knees
And beg for anything

A single sign that you hear my desperate cry
And save me from this endless nightmare

Take everything I have
Take my soul
Take my life
Take it all...

Having nowhere else to turn
Makes it all so painful
And it's getting even harder
Every waking moment

Day after day is passing
Leading us to the end...

Pt.4 - Depression

Tonight, it's coming to an end
The world as we used to know it
The sun won't feel so warm no more
Where to go at the end of the road?

Sleepless, staring at the shadows
Faces prying through the walls
And I can't believe that this was all for nothing
But I'm left with only questions in the end
And I'm reaching out to get a hold of something
But my hope has vanished in thin air

Pt.5 - Acceptance (ft. Zak Stevens)

The time has come
To cross the door
Clear the mind and make some sense
Of it all

This painful virus deep inside
Stole away all life
To the point where every breath
Was harder with each step

Day after day
The weight on my shoulders seems lighter
To the end of time, it'll be
In my mind

The nights will never be the same
But still the promise remains
That they, at least, will see it through

At the end lies a new day for me
Brought to my knees
But still, I have a beating heart

Deprived of all that I held dear
Denied of subtle hopes and dreams
Reality finally caught up with me

Although my thoughts have awakened
Before the sun
There came a time I felt its rays scare the nightmares away

I need to keep the promise I made long ago

That I'll be moving on
Leave the torment and anguish behind
But keep this memory with me all the time
And try to focus on tomorrow

The First Step Forward

The hours are moving backwards

A major flaw in time

At the end of this dark road

Lies the meaning of my life

The choices made before this

Have led to this one now

Take the first step forward

Or root on this barren land

Don't look back

It doesn't matter anymore

Our voice has been silenced

Better run

Escape this faceless masquerade

And move on to the next page

When we're there

We'll face together whatever we meet

And the past will fade to nothing

When we're there

There will be no pain and no more deceit

And we'll start to hope for something

Don't look back...

It doesn't matter...anymore

Rumination

Keep it away from me
Hide it somewhere in the past
Where there's still something left to yearn
Before it all comes crumbling down

Just let me rest my eyes
Just for now....

What I had I never realized
It was the life of me
The air I breathe, the spark inside me
Let it slip through my fingers
Disappear right before my eyes

It wasn't my mind
Ignoring tears on my reflection
Truths unspoken lurking

It wasn't my mind
Suppressing signs of this infection
Spreading like cancer each day

Creeping behind me
Memories of a tale forgotten
A moment so mundane
I can't recall no more
Dormant Inside me
Ash and ruin of a dream discarded
A promise to myself
I could not keep no more

The Final Act

I never wanted this for us
I never meant for any of this to happen
The road we chose was dangerous
And all of a sudden...

The pieces came together
And what seemed lost forever
Now we hold

This could be the very last chance
The final act before the curtain falls
And far beyond my wildest dreams
I found a way to rise above
The doubts inhabiting my mind

I'll be right here forever
Every single moment
Every speck of time

I'll hold on to it forever
The peace when we're together
